

HVAC Sheet Metal Ductwork Installer

Why Technicians Join ControlAir Systems:

- Exceptional company culture
- Strong support team and talented technicians
- Consistent 40-hour schedule with optional overtime
- Long-term stability with an established and growing company

Description:

ControlAir Systems is seeking an experienced Commercial Sheet Metal Ductwork Installer to join our dynamic team. The ideal candidate will have a background in commercial ductwork installation and the ability to work well with and lead others.

In this position, you will be responsible for installing and/or overseeing new ductwork in various commercial buildings such as office spaces, retail stores, restaurants, labs and more. This position requires keen attention to detail and the ability to work collaboratively within our team. Our typical working locations include the Greater Boston Area, South Shore, North Shore and Southern NH, and we strive to keep our employees working at job sites close to their homes whenever possible. Applicants must have a vehicle and valid driver's license.

\$25 - \$50+ per hour DOE and Great Benefits!

The Sheet Metal Mechanic is Responsible For:

- Working alongside experienced, licensed team members and installing commercial ductwork systems according to blueprints, specifications, and industry standards.
- Analyzing and resolving construction project challenges with your team and the GC
- Willingness to train and potentially mentor others
- Maintaining high standards regarding safety, quality and professionalism on job sites at all times.

Qualifications:

- Journeyman License preferred (schooling is provided for those who have not yet achieved their license)
- 3+ years sheet metal install experience
- Ability to interpret plans, project specifications and equipment submittals. If you do not have these skills, training can be provided.
- Valid Driver's License in good standing.
- High School diploma or GED.
- Ability to multitask and communicate with foreman and team members.
